

FERDIANSYACH

Information Systems Graduate | Versatile IT Professional | Web, Data & IT Support

Depok, Indonesia | iyanferdiansyach30@gmail.com | +62 888 6007 599 | linkedin.com/in/ferdiansyach | github.com/ferdiansyach | ferdiansyach-portfolio.vercel.app

PROFESSIONAL SUMMARY

Information Systems graduate (GPA 3.77) with hands-on experience spanning web development, data analysis, and IT support. Built 3+ production web applications (React, Next.js, Node.js) while engineering predictive ML models (LSTM, XGBoost) achieving 92% accuracy at Telkom Indonesia. Skilled in managing IT lab infrastructure with 98% device availability, and well-practiced in Agile/Scrum methodologies. A fast-adapting professional ready to contribute across diverse technology roles in dynamic work environments.

PROFESSIONAL EXPERIENCE

Business Intelligence & ML Intern

Apr 2025 – Sep 2025

Telkom Indonesia | Infranexia | Internship | Jakarta, ID

- Engineered a predictive AI model using LSTM and Gradient Boosting that achieved 92% accuracy in smart building energy consumption forecasting, directly supporting the techno-economic analysis division.
- Architected an end-to-end data pipeline from raw ingestion through preprocessing to model deployment (LSTM, XGBoost), processing 50,000+ data points and generating actionable insights for energy efficiency optimization.
- Developed a web-based internship management platform in collaboration with 3 cross-functional divisions, serving 100+ interns and reducing onboarding coordination overhead.

Computer Laboratory Assistant

Sep 2024 – Sep 2025

Lab Data Monetize | Universitas Nasional | Student Organization | Jakarta, ID

- Maintained and troubleshooted 30+ laboratory computer units, sustaining 98% device availability during operational hours and minimizing session downtime for 200+ students per semester.
- Optimized software installation and system configuration workflows, supporting lab sessions for 200+ students per semester through standardized maintenance procedures.

Research & Development Assistant

Jun 2024 – Mar 2025

HIMASI | Universitas Nasional | Student Organization | Jakarta, ID

- Orchestrated a national technology seminar as Chief Executive, coordinating 15 committee members from planning to execution and successfully delivering the event to 150+ attendees on schedule.
- Developed and managed the association's official WordPress website, increasing website traffic by 40% and driving member engagement through structured, SEO-optimized content.

Fullstack Developer

Apr 2024 – Nov 2024

UNAS FEST | Universitas Nasional Festival | Student Organization | Jakarta, ID

- Developed 10+ responsive website components using TypeScript and Tailwind CSS, achieving a Lighthouse score of 90+ for performance and accessibility on the official festival portal.
- Built Next.js API Routes for attendee registration and database integration, and engineered a testing pipeline with Jest and React Testing Library that slashed production bug rate by 60%.

EDUCATION

Universitas Nasional

2022 – 2026

Bachelor of Computer Science (S.Kom) | Information Systems

GPA: 3.77

Capstone Project: Cloud-Based Coastal Water Quality Monitoring: Spatiotemporal Trend Analysis and Unsupervised Spectral Clustering via Web-GIS

Relevant Coursework: Web Programming, Database Systems, Software Engineering, Artificial Intelligence, System Analysis & Design, Computer Networks

TECHNICAL SKILLS

Web Development: HTML/CSS, JavaScript, TypeScript, Tailwind CSS, React, Next.js, Node.js, Express.js, REST API, GraphQL, Prisma, WordPress

Data Analysis & ML: Python, NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, NLTK, Jupyter Notebook, Streamlit, Tableau, Google Earth Engine, GIS, spatial analysis, clustering, unsupervised learning

Database & DevOps: MySQL / SQL, PostgreSQL, MongoDB, Docker, GCP, Git & GitHub, GitHub Actions, CI/CD

Methodology & Soft Skills: Agile Scrum, SDLC, Jira, Manual & API Testing, Postman, Technical Documentation, Cross-functional Teamwork

IT Support & Administration: Lab Maintenance, System Configuration, Windows & Linux Administration, Hardware/OS Troubleshooting, Networking Basics, Microsoft Office

SELECTED PROJECTS

Indosaji E-commerce (GitHub)

An end-to-end full-stack e-commerce platform based on MERN with payment gateway integration.

React, Node.js, Express.js, MongoDB, REST API, JWT Auth, Stripe

Smart Meter Analysis (GitHub)

Predictive AI models (LSTM & XGBoost) for energy anomaly detection with a real-time interactive dashboard.

Python, Machine Learning, Data Analysis, Streamlit, XGBoost, LSTM, Pandas

HIMASI UNAS Website (GitHub)

A professional Content Management System (CMS) optimized for the student association.

WordPress, Content Management, SEO, Plugin Management

CERTIFICATIONS & LICENSES

Junior Web Developer | BNSP (Badan Nasional Sertifikasi Profesi) (Feb 2026)

IT Specialist | Python | Certiport (Pearson VUE) (Oct 2025)

Scrum Mastery | Telkom Indonesia (Jul 2025)

Internet of Things Fundamental | Telkom Indonesia (Apr 2025)

Statistics Using R for Data Science | DQLab (Feb 2023)
