PROFESSIONAL SUMMARY

Information Systems graduate from Universitas Nasional (GPA 3.77) with professional experience at Telkom Indonesia. Proficient in full-stack web development using React, Node.js, and Next.js, as well as predictive Machine Learning modeling with Python, LSTM, and XGBoost. BNSP-certified Junior Web Developer and Certiport IT Specialist in Python. Experienced in organizational leadership and cross-functional team collaboration. Committed to delivering innovative technology solutions in a professional environment.

PROFESSIONAL EXPERIENCE

Business Development Intern
April 2025 — September 2025

Telkom Indonesia — Infranexia

- Led a techno-economic analysis on smart building energy efficiency, developing a predictive AI model.
- Developed an end-to-end data pipeline from processing to model training (Gradient Boosting, LSTM).
- Collaborated in designing and deploying a web-based internship platform.

Computer Laboratory Assistant
September 2024 — September 2025

Lab Data Monotize — Universitas Nasional

- Provided technical support for laboratory equipment and software.
- Performed periodic maintenance and software installation on lab computers.

Research & Development Assistant
Juni 2024 — Maret 2025

HIMASI Universitas Nasional

- Led a technology seminar as Chief Executive, managing the event from planning to execution.
- Co-developed and managed the association's official WordPress website, increasing member engagement.

Fullstack Developer Committee
April 2024 — November 2024

Universitas Nasional Festival (UNAS FEST)

- Developed responsive website components using TypeScript and Tailwind CSS.
- Tested and debugged components to ensure optimal stability and performance.

Front End Developer
Agustus 2024 — Oktober 2024

Anambas Website Project

- Developed attractive and responsive UI components for a tourism project.
- Collaborated on front-end architecture to enhance website performance.

EDUCATION

Universitas Nasional
2022 — 2026

Bachelor of Computer Science (S.Kom) — Information Systems

GPA: 3.77

Relevant Coursework: Web Programming, Database Systems, Software Engineering, Artificial Intelligence, System Analysis & Design, Computer Networks

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS, HTML/CSS

Backend: Node.js, Express.js, REST API, MongoDB, SQL

Data & ML: Python, Machine Learning, Pandas, R, Streamlit

Tools & Others: Git, WordPress, VS Code, Figma, Docker, Laravel

SELECTED PROJECTS

Indosaji E-commerce
GitHub ↗

An end-to-end full-stack e-commerce platform based on MERN with payment gateway integration.

`React · Node.js · Express.js · MongoDB · REST API · JWT Auth`

Smart Meter Analysis
GitHub ↗

Predictive AI models (LSTM & XGBoost) for energy anomaly detection with a real-time interactive dashboard.

`Python · Machine Learning · Data Analysis · Streamlit · XGBoost · LSTM`

Anambas Tourism Website

An interactive and responsive tourism platform built with the Next.js and Tailwind CSS ecosystem.

`Next.js · React · Tailwind CSS · TypeScript`

CERTIFICATIONS & LICENSES

Junior Web Developer — BNSP (Badan Nasional Sertifikasi Profesi) (Feb 2026)

IT Specialist — Python — Certiport (Pearson VUE) (Oct 2025)

Internet of Things Fundamental — Telkom Indonesia (Apr 2025)

Google Cloud Computing Foundations — Google Cloud (Dec 2025)

Scrum Mastery — Telkom Indonesia (Jul 2025)

Statistics Using R for Data Science — DQLab (Feb 2023)
