

FERDIANSYACH

IT Specialist | Quality Assurance & Manual Testing | Software Developer

Depok, Indonesia | iyanferdiansyach30@gmail.com | +62 888 6007 599 | linkedin.com/in/ferdiansyach | github.com/ferdiansyach | ferdiansyach-portfolio.vercel.app

PROFESSIONAL SUMMARY

Information Systems graduate with broad competencies in Quality Assurance (QA/Testing), software engineering, and IT support. Proven track record of high attention to detail in bug detection and system optimization, including engineering a testing pipeline (Jest/RTL) that slashed production bug rate by 60% and maintaining 98% device availability in computer labs. Well-versed in SDLC (Agile/Scrum) methodologies, manual testing (API/Web), and data analysis. Ready to contribute flexibly across diverse IT roles.

PROFESSIONAL EXPERIENCE

Business Intelligence & ML Intern

Apr 2025 – Sep 2025

Telkom Indonesia | Infranexia | Internship | Jakarta, ID

- Engineered a predictive AI model using LSTM and Gradient Boosting that achieved 92% accuracy in smart building energy consumption forecasting, directly supporting the techno-economic analysis division.
- Architected an end-to-end data pipeline from raw ingestion through preprocessing to model deployment (LSTM, XGBoost), processing 50,000+ data points and generating actionable insights for energy efficiency optimization.
- Developed a web-based internship management platform in collaboration with 3 cross-functional divisions, serving 100+ interns and reducing onboarding coordination overhead.

Fullstack Developer

Apr 2024 – Nov 2024

UNAS FEST | Universitas Nasional Festival | Student Organization | Jakarta, ID

- Developed 10+ responsive website components using TypeScript and Tailwind CSS, achieving a Lighthouse score of 90+ for performance and accessibility on the official festival portal.
- Built Next.js API Routes for attendee registration and database integration on the official festival portal.
- Designed and executed a component/unit testing pipeline using Jest and React Testing Library, writing test cases across critical registration flows that identified and prevented recurring bugs — slashing production bug rate by 60% prior to festival launch.

Computer Laboratory Assistant

Sep 2024 – Sep 2025

Lab Data Monetize | Universitas Nasional | Student Organization | Jakarta, ID

- Diagnosed and resolved recurring hardware/software issues across 30+ lab units through systematic troubleshooting and post-fix verification, sustaining 98% device availability and minimizing session downtime for 200+ students per semester.
- Documented and standardized software installation/configuration procedures into repeatable maintenance checklists, reducing recurring configuration errors across lab sessions for 200+ students per semester.

Research & Development Assistant

Jun 2024 – Mar 2025

HIMASI | Universitas Nasional | Student Organization | Jakarta, ID

- Orchestrated a national technology seminar as Chief Executive, coordinating 15 committee members from planning to execution and successfully delivering the event to 150+ attendees on schedule.
- Developed and managed the association's official WordPress website, increasing website traffic by 40% and driving member engagement through structured, SEO-optimized content.

EDUCATION

Universitas Nasional

2022 – 2026

Bachelor of Computer Science (S.Kom) | Information Systems

GPA: 3.77

Capstone Project: Cloud-Based Coastal Water Quality Monitoring: Spatiotemporal Trend Analysis and Unsupervised Spectral Clustering via Web-GIS

Relevant Coursework: Web Programming, Database Systems, Software Engineering, Artificial Intelligence, System Analysis & Design, Computer Networks

TECHNICAL SKILLS

Software Testing & QA: Manual Testing, API Testing (Postman), Unit & Component Testing (Jest & RTL), Web Developer Tools

Languages & Frameworks: HTML/CSS, TypeScript, Python, React, Next.js, Node.js, Express.js, GIS, spatial analysis, clustering, unsupervised learning

Database & Tools: MySQL / SQL, MongoDB, Git & GitHub, GitHub Actions, Agile Scrum

IT Support & Troubleshooting: Lab Maintenance, System Configuration, Hardware & OS Troubleshooting

SELECTED PROJECTS

Website UNAS FEST ([GitHub](#))

A large-scale official web portal to support the operations of the university's annual festival.

TypeScript, React, Tailwind CSS, Next.js

Indosaji E-commerce ([GitHub](#))

An end-to-end full-stack e-commerce platform based on MERN with payment gateway integration.

React, Node.js, Express.js, MongoDB, REST API, JWT Auth, Stripe

Smart Meter Analysis ([GitHub](#))

Predictive AI models (LSTM & XGBoost) for energy anomaly detection with a real-time interactive dashboard.

Python, Machine Learning, Data Analysis, Streamlit, XGBoost, LSTM, Pandas

CERTIFICATIONS & LICENSES

Junior Web Developer | BNSP (Badan Nasional Sertifikasi Profesi) (Feb 2026)

IT Specialist | Python | Certiport (Pearson VUE) (Oct 2025)

Scrum Mastery | Telkom Indonesia (Jul 2025)

Internet of Things Fundamental | Telkom Indonesia (Apr 2025)

Statistics Using R for Data Science | DQLab (Feb 2023)
