PROFILE SUMMARY

A highly dedicated Fullstack Developer and Data Analyst. Possesses a strong foundation in building responsive web applications and designing predictive Machine Learning (AI) models. Accustomed to working in teams, structured in project management, and enthusiastic to contribute directly to future technological solutions.

EXPERIENCE

Business Development Intern — April 2025 — September 2025

Telkom Indonesia — Infranexia

- Led a techno-economic analysis on smart building energy efficiency, developing a predictive AI model.
- Developed an end-to-end data pipeline from processing to model training (Gradient Boosting, LSTM).
- Collaborated in designing and deploying a web-based internship platform.

Computer Laboratory Assistant — September 2024 — September 2025

Lab Data Monotize — Universitas Nasional

- Provided technical support for laboratory equipment and software.
- Performed periodic maintenance and software installation on lab computers.

Research & Development Assistant — Juni 2024 — Maret 2025

HIMASI Universitas Nasional

- Led a technology seminar as Chief Executive, managing the event from planning to execution.
- Co-developed and managed the association's official WordPress website, increasing member engagement.

Fullstack Developer Committee — April 2024 — November 2024

Universitas Nasional Festival (UNAS FEST)

- Developed responsive website components using TypeScript and Tailwind CSS.
- Tested and debugged components to ensure optimal stability and performance.

Front End Developer

Agustus 2024 — Oktober 2024

Anambas Website Project

- Developed attractive and responsive UI components for a tourism project.
- Collaborated on front-end architecture to enhance website performance.

EDUCATION

Universitas Nasional

2022 — 2026

Bachelor of Computer Science (S.Kom) — Information Systems

GPA (IPK): 3.77

Relevant Coursework: Web Programming, Database Systems, Software Engineering, Artificial Intelligence, System Analysis & Design, Computer Networks

SKILLS

Frontend

React, Next.js, TypeScript, Tailwind CSS, HTML/CSS

Backend

Node.js, Express.js, REST API, MongoDB, SQL

Data & ML

Python, Machine Learning, Pandas, R, Streamlit

Tools & Others

Git, WordPress, VS Code, Figma, Docker, Laravel

SELECTED PROJECTS

Indosaji E-commerce

An end-to-end full-stack e-commerce platform based on MERN with payment gateway integration.

`[React • Node.js • Express.js • MongoDB • REST API]`

Smart Meter Analysis

Predictive AI models (LSTM & XGBoost) for energy anomaly detection with a real-time interactive dashboard.

`[Python • Machine Learning • Data Analysis • Streamlit • XGBoost]`

Anambas Tourism Website

An interactive and responsive tourism platform built with the Next.js and Tailwind CSS ecosystem.

`[Next.js • React • Tailwind CSS • TypeScript]`

PROFESSIONAL CERTIFICATIONS

- **Junior Web Developer** — BNSP (Badan Nasional Sertifikasi Profesi) (Feb 2026)
- **Google Cloud Computing Foundations** — Google Cloud (Dec 2025)
- **IT Specialist — Python** — Certiport (Pearson VUE) (Oct 2025)
- **Scrum Mastery** — Telkom Indonesia (Jul 2025)
